Clinical psychology is a professional area of applied psychology. Clinical psychological service is based on an integration of theory, scientific research, practice and clinical judgment. There are four main types of services: (1) **direct service** to clients, which may include assessment (such as personality, behavior, intelligence) and/or psychological treatment; (2) **supportive service** to carers; (3) **professional consultation** (including staff training, clinical supervision, teaching) and **public education** (such as promotion of psychological health) and (4) **research**.

## **List of Non-Government (Voluntary) Organizations Providing Clinical Psychology Services (April 2024)**

### Disclaimer

- Please note that some of these services are not subvented by the government but charged at market rate. This is not an exhaustive list for all clinical psychology services provided by Non-Government (Voluntary) Organizations in Hong Kong.
- The Division of Clinical Psychology (DCP) of The Hong Kong Psychological Society (HKPS) provides this list for the public's information and reference only. This does not mean DCP recommends the service of a particular organization or holds any interest in providing this list.
- Clinical psychologists with their names listed under each organization are DCP members who have given DCP the consent to publish their names on this list.
- The information listed here is provided by individual organizations. **DCP does not hold any legal liability for the professional services rendered by listed organizations.**

### Exercise care in choosing qualified clinical psychologists

At present, anybody in Hong Kong can self-declare himself/herself as “psychologist” providing “psychological services” or “psychotherapy”. There is no statutory body with legal powers to monitor professional qualification or practice of clinical psychology in Hong Kong. To protect your own rights, you should be careful in choosing the service-provider. Pay attention to or verify the person's academic and professional qualifications. For instance, check whether the person is eligible to be a member of our Division (note 1).

Information listed is for reference only. For inquiries about booking procedures and charges, please contact the organization(s) directly. DCP will not make appointment for the public.

Notes

**1. Membership Criteria for Division of Clinical Psychology (DCP)**

- a. Members of DCP must have obtained at least a master's degree in clinical psychology [which includes these three components: (1) intense practicum under close supervision in many sub-specialized areas (such as child and adolescence, adult psychiatry, chronic illness or disability); (2) intense training in psychological assessment (such as intelligence tests); **and** (3) independent research].
- b. Since 1999, DCP operates a voluntary Continuing Education Scheme for our members.
