Clinical psychology is a professional area of applied psychology. Clinical psychological service is based on an integration of theory, scientific research, practice and clinical judgment. There are four main types of services: (1) **direct service** to clients, which may include assessment (such as personality, behavior, intelligence) and/or psychological treatment; (2) **supportive service** to carers; (3) **professional consultation** (including staff training, clinical supervision, teaching) and **public education** (such as promotion of psychological health) and (4) **research**.

List of “Registered Clinical Psychologists” with Independent or Private Practice (April 2020)

Disclaimer

This list contains clinical psychologists who are: (1) **members of Division of Clinical Psychology (DCP)**, (2) **Registered Clinical Psychologists of The Hong Kong Psychological Society (HKPS)**, (3) **providing services in a self-employed basis**, AND (4) **willing to have their names and practice released to the public**. The list is not an **exhaustive list of clinical psychologists in Hong Kong**.

The **Division of Clinical Psychology (DCP) of The Hong Kong Psychological Society (HKPS)** provides this list for the public’s **information and reference only**. This does not mean DCP recommends the service of a particular individual member or organization or holds any interest in providing this list. The information listed here is provided by members. On the date of print, DCP could only verify the HKPS registration status and DCP membership status. **DCP does not hold any legal liability for the professional services rendered by listed members or organizations.**

Exercise care in choosing qualified clinical psychologists

At present, anybody in Hong Kong can self-declare himself/herself as “psychologist” providing “psychological services” or “psychotherapy”. There is no statutory body with legal powers to monitor professional qualification or practice of clinical psychology in Hong Kong. To protect your own rights, you should be careful in choosing the service-provider. First of all, pay attention to or verify the person’s academic and professional qualifications. For instance, check whether the person is eligible to be a Registered Clinical Psychologist of HKPS and a member of our Division (Note 1).

Way to Make appointment and Fees/Charges

1. In general, appointments have to be made by the client or his/her relative in advance by phone. Referrals from professionals (e.g. medical doctor, allied health professional, social worker, teacher) and organization are usually accepted.
2. Fees are usually charged at private rate (depending on case nature, service needs, experience of clinical psychologist) on a per-session basis.
3. For inquiries about booking procedures and charges, please contact the clinical psychologist(s) directly. DCP will not make appointment for the public.

Notes

1. Membership Criteria for Division of Clinical Psychology (DCP)

Members of DCP must have obtained at least a master degree in clinical psychology [which includes these three components: (1) intense practicum under close supervision in many sub-specialized areas (such as child and adolescence, adult psychiatry, chronic illness or disability); (2) intense training in psychological assessment (such as intelligence tests); and (3) independent research].
